CodeChef

Profile

Computer Science and Data Science undergraduate at IIIT Bhopal with hands-on experience building full-stack and AI-enabled web applications. Strong foundation in data structures, algorithms, DBMS, operating systems, and software engineering, with practical experience across React.js, Next.js, Node.js, Express.js, PostgreSQL, Prisma, Clerk, LangChain, and Stripe. I enjoy building reliable products with clean backend design and polished user experiences.

Education

Indian Institute of Information Technology, Bhopal

2024 – 2028

B.Tech in Computer Science and Data Science

CGPA: 7.82

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Compiler Design, Web Development, Data Mining & Warehousing

Dev Memorial Sr. Sec. School

2023

Class XII (CBSE)

89.00%

Christu Jyoti Convent Sr. Sec. School

2021

Class X (ICSE)

97.00%

Technical Skills

-**Programming:** C++, Python, JavaScript, TypeScript, SQL, Bash

-**Databases:** PostgreSQL, MySQL, Neon PostgreSQL, Prisma ORM, ChromaDB

-**Web Technologies:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, ShadCN UI, Node.js, Express.js, FastAPI, REST APIs

-**Developer Tools:** Git, GitHub, Postman, VS Code, Render, Linux

-**Concepts:** Authentication, Authorization, API Design, Responsive Web Design, MVC Architecture, SaaS Development

-**Core CS:** Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering, Compiler Design

Projects

Sommaire AI — AI-Powered PDF Summarization SaaS

GitHub

Live

Tech Stack: React.js, Node.js, Express.js, JavaScript, Neon PostgreSQL, LangChain, Gemini AI, Clerk, JWT, Stripe, Tailwind CSS, ShadCN UI

- Built a full-stack SaaS application that lets users upload PDF documents and generate AI-based summaries using Gemini AI and LangChain.
- Implemented secure authentication, protected routes, and subscription flows with Clerk, JWT, and Stripe for tiered Basic and Pro plans.
- Designed backend services for document handling, summary generation, and user operations with Express.js and Neon PostgreSQL.
- Created a responsive React interface with Tailwind CSS and ShadCN UI to deliver a smooth experience across desktop and mobile devices.

CollabHub — Workspace & Project Management Platform

GitHub

Live

Tech Stack: React.js, Node.js, Express.js, Prisma ORM, PostgreSQL, Clerk, JWT, Inngest, Tailwind CSS

- Developed a collaborative workspace platform for managing workspaces, projects, tasks, deadlines, and team activity in one place.
- Built role-based authentication and authorization with Clerk and JWT to support secure workspace administration and user management.
- Integrated Inngest for asynchronous workflows, improving responsiveness for background operations and long-running tasks.
- Designed responsive dashboards in React.js and Tailwind CSS to give users clear visibility into progress, assignments, and deadlines.

Competitive Programming & Achievements

- CodeChef rating: **1513** with a **2-star** profile earned through consistent contest participation and achieved **Global Rank 655** in CodeChef Starters 250 among 20,000+ participants.
- Codeforces Rating: **PUPIL (max. 1304)** and achieved Global Rank 1027 in Codeforces Round 1113 (Div 2).
- Solved **700+ DSA problems** across LeetCode, Codeforces, CodeChef, GeeksforGeeks, and AlgoMaster, covering arrays, trees, graphs, dynamic programming, greedy algorithms, heaps, and recursion.
- Secured **98.11 percentile** in JEE Main 2024 among more than one million candidates and qualified JEE Advanced 2024.
